Deepwater Horizon Incident Update #25
(Highlighted sections indicate new information)

Actions Taken in Santa Rosa County

- At 10 a.m. this morning, the EOC returned to a level 2, or partial activation with essential staff, from 8 a.m. - 5 p.m. until further notice.
- FDEP gave the state contractor, DRC, approval to begin staging boom for Santa Rosa County's tier three or additional booming plan on June 1.
- This afternoon, the state approved DRC to deploy or place the boom. DRC will begin placing boom tomorrow morning, June 3, working Santa Rosa's additional booming plan in a west to east direction. If weather conditions are favorable, they expect the additional booming to be in place in two days.
- An additional booming plan for Santa Rosa County that was drafted by the state's contractor WRS for the county, has been approved by unified command and the plan and booming map are posted at www.santarosal.fl.gov/oilspill, shown as a blue cross on the map (some locations have two crosses to show point to point locations).
- The following booming sites, which are in addition to the U.S. Coast Guard's Area Contingency Plan, would be deployed by Santa Rosa's selected state contractor, DRC, who would be responsible for monitoring, maintaining and disposal of any oil material:
 - Zamarra Canal
 - Gilmore Bayou
 - Woodland Bayou
 - Villa Venyce
 - Santa Rosa Shores
 - Hoffman Bayou
 - Polynesian Isle
 - East River
 - Two booms in Pensacola Bay
- The needed Army Corps of Engineering permitting for this plan has been received and has been signed by the county.
- The state's contractor, DRC, is on standby and ready to respond as needed in Santa Rosa County.
- Unified command continues to check, verify the condition, and make repairs as needed, to currently placed booms.

Situation Update

- **Navarre Beach and Santa Rosa's entire coastline is open.** Two links to live Web cams on Navarre Beach are available at www.santarosa.fl.gov/oilspill.
- According to the NOAA oil plume model, the primary oil plume is 35 miles from Pensacola, 140 miles west of Mexico Beach, and 325 miles from St. Petersburg, with non contiguous sheens and scattered tarballs closer.
- No large oil impacts are expected across any portion of the state within the next 72 hours. NOAA forecast trajectories place Escambia and Santa Rosa Counties within the uncertainty area by Friday.
- Oil sheen was reported by the Florida Fish and Wildlife Conservation Commission approximately 10 miles from Florida's Shoreline on Tuesday, June 1.

- Skimmers have been deployed near Pensacola with hopes of removing the oil near the shore waters and preventing and minimizing any potential impacts to Florida.
- A concentration of tarballs has been confirmed approximately 10 miles from the Escambia County shoreline.
- Any potential impacts to Florida's shoreline will be highly weathered, in the form of tar balls, oil sheen, tar mats, or mousse- a pudding-like oil/water mixture that could be brown, rust or orange in color. For more information visit www.santarosa.fl.gov/oilspill, under the Fact Sheet and Q & A heading.
- At this time there are no indications of any health risks due to the Deepwater Horizon incident. The Department of Health and DEP are closely monitoring health and environmental impacts to Florida's beaches and will notice an advisory if conditions become unsafe.
- The public is reminded that ALL suspected sightings of oil substances from the spill should be reported directly to the State Warning Point at 1-877-2-SAVE-FL (1-877-272-8335). Do not pick the substance up. When reporting to the hotline, please be ready to provide detailed sighting information, including a description and an address or prominent landmarks.
- For most people, an occasional brief contact with a small amount of oil, while not recommended, will do no harm. Learn more at http://www.dep.state.fl.us/deepwaterhorizon/files/faq_doh_051010.pdf.
- Approximately 257,750 feet of boom has been deployed in Florida.
- Unified Command's response strategy is divided up into primary two Response Task Forces, Shore-based response and Marine-based response
 - Shore-based Response
 - SCAT teams to assess cleanup approach
 - Rapid response or "hot shot" teams deployed for targeted shoreline clean-up
 - Primary Shoreline cleaning/recovery task force
 - Specialist Beach Support Team
 - Specialist Marsh Support Team
 - Waste Disposal
 - Wildlife Group
 - Marine-based Response
 - Deepwater skimming
 - Shoreline protection (boom monitoring and maintenance)
 - Sampling (sediment, water and Sentinels)
 - Marine Fast Response
 - Near-shore Recovery (near shore skimming, pom-pom/snare deployment & recovery)
 - Marine Logistics (people transfer, supplies and waste transfers)
- BP has a three step approach which resources staged or currently deployed to collect sheen and tar balls that includes skimmers, both containment and deflection boom, and SCAT teams for any material that might reach the shore. Additional operational plans to retrieve tar mats before they reach the shore are also in place.
- BP local area (Mobile Sector)resources:
 - 6,187 field personnel
 - 741 active offshore vessels
 - 65 skimming vessels
 - 60 boats and four skimmers are currently working in the Mobile sector today.
 - 5 SCAT teams, one accessing our beaches today, June 2
- Unified Area Command has consolidated a report of fish and wildlife collected in the Deepwater Horizon/BP incident impact area. The report is updated each day at noon and is available at <http://www.deepwaterhorizonresponse.com/go/doctype/2931/55963>.
- BP announced the availability of an informational Web site designed to offer state-specific oil spill information to residents of Florida communities affected by the Deepwater Horizon oil spill. Residents are encouraged to visit this site frequently and sign up for the mailing list to receive information about BP's spill response. The Florida state site can be found at www.floridagulfresponse.com.
- There are reports of a scam involving individuals falsely representing themselves as BP employees and offering applicants training and promising job placement for a fee. BP does not charge to train and hire applicants. If you or someone you know has been charged for training, please contact law enforcement.

- The Gulf Oil Spill Economic Recovery Task Force has been established. It will facilitate efforts by Florida businesses and industries to recover from the loss of commerce and revenues due to the oil spill. For more information, visit <http://www.dep.state.fl.us/deepwaterhorizon/default.htm>.
- BP is providing a \$100,000 grant through a Memorandum of Understanding with Volunteer Florida to maintain a database for the regulation of volunteers: <http://www.1-800-volunteer.org/1800Vol/volunteerflorida/viewEventDetails.do?eventId=31601>.
- Santa Rosa County Tourist Development Council will receive an amount of \$500,000 to cover the cost of the first 45 days of the proposed marketing plan put in place to help Florida tourism.
- Residents are asked to stay clear of boom on beaches and in open water. Boom has been placed to protect environmentally sensitive and strategic areas and damaging or removing the boom puts those areas at risk. Crossing boom can cause serious damage to vessels.
- Spill responders are asking for the public's help in monitoring boom along the Gulf Coast. Boaters are requested to report sightings of broken, disconnected, or adrift boom; and encouraged to keep their distance from boom especially at night and in conditions of restricted visibility. Report damaged, vandalized, adrift, or stolen boom to 1-866-448-5816.
- Santa Rosa County and the State of Florida continue to make preparations to safeguard the state's shoreline.

BP Claims

- A BP Community Outreach Center has been opened in Gulf Breeze at:
 - 1198 Gulf Breeze Pkwy., Ste. 6, Gulf Breeze FL 32561
 - Phone (850) 691-9116
- BP Claims for Deepwater Horizon can be submitted at www.bp.com/claims.
- To serve the residents of Santa Rosa County, BP opened a claims office in Midway on Friday, May 14. The office is located at 5668 Gulf Breeze Parkway Unit B-9 in Gulf Breeze. Hours of operation will be 8 a.m. to 7 p.m., seven days a week, until further notice.
 - BP recommends anyone with a claim to call 1-800-440-0858 to help expedite the process. By calling the claims number, adjusters at the claims office will have the information prior to your visit.
 - The office is located at: BP Claims Office 5668 Gulf Breeze Pkwy Unit B-9 Gulf Breeze, FL 32563
- BP claims in Florida: 5,000/ approximately \$3,519,815.03 paid
 - Wage Loss: 2,761 claims/ \$1,692,832.19
 - Loss of Income:
 - Commercial: 392 claims/ \$252,976.93
 - Business Interruption: 247 claims/ \$108,488.28
 - Shrimper: 114 claims/ \$254,250.00
 - Fisherman: 547 claims/ \$586,894.79
 - Oyster Harvester: 126 claims/ \$2,500.00
 - Crabber: 11 claims/ \$5,000.00
 - Recreational Fisherman: 4 claims/ \$10,000.00
 - Wholesale Distributor: 7 claims/ \$5,000.00
 - Rental Property: 422 claims/ \$66,416.00
 - Charters: 233 claims/ \$511,776.84
 - Maintenance Company: 5 claims/ \$7,680.00
 - Seafood Processor: 12 claims/ \$6,000.00
 - Marine Repair: 16 claims/ \$5,000.00
 - Real Estate Sales: 45 claims/ \$5,000.00

Fishing

- The fisheries, wildlife and seafood off of Florida's coast in state waters are safe and there are no alerts at this time.
- Local fishing areas remain open; however, NOAA modified all commercial and recreational fishing in the closed fishing area. All commercial and recreational fishing including catch and release is prohibited in the closed area; however transit through the area is allowed.

- The closure measures 75,920 sq mi which is slightly more than 31 percent of the Gulf of Mexico exclusive economic zone. The majority of federal waters in the Gulf of Mexico are open to commercial and recreational fishing. Coordinates and other details can be found at http://sero.nmfs.noaa.gov/bulletins/pdfs/2010/FB10-050_BP_Oil_Spill_Closure_060210.pdf.
- The recreational harvest season for red snapper in Gulf of Mexico waters off Florida reopened on June 1. The harvest season is scheduled to remain open until July 24 this year. For more information about red snapper management and regulations, go to www.MyFWC.com/Fishing.
- The Florida Fish and Wildlife Conservation Commission designated June 5 & 6 as Free Saltwater Fishing Days to encourage noncommercial fishing in Florida. During these dates, both residents and nonresidents in Florida can fish for saltwater species around the state without a license. All other fishing rules apply.
- The FWC reminds Floridians and visitors that the state's recreational and commercial fisheries have not been impacted by the oil spill and remain open for public enjoyment and commerce. Florida saltwater fishing regulations remain in effect as usual and are available online at MyFWC.com/Fishing.
- Modeling and mapping the actual and projected spill area is not an exact science. NOAA Fisheries Service strongly advises fishermen not to fish in areas where oil or oil sheens (very thin layers of floating oil) are present, even if those areas are not currently closed to fishing.
- Details can be found at: <http://sero.nmfs.noaa.gov/>

Small Business Disaster Loans Available

- Governor Crist announced that the U.S. Small Business Administration has approved disaster loan funds for businesses along Florida's Gulf coast that have been impacted by the Deepwater Horizon incident.
 - SBA representatives opened a disaster loan office on Tuesday, May 18 at the Navarre Visitor Information Center located at 8543 Navarre Parkway (U.S. Hwy 98) in Navarre. Hours of operations will be 8 a.m. - 5 p.m. Monday- Friday until further notice.
 - More information can be found at: www.sba.gov/services/disasterassistance/SERV_DISASTERASSISTANCEGOV.html

Vessels of Opportunity (boats) program

- BP is looking to contract shrimp boats, oyster boats and other vessels for hire through the Vessel of Opportunities Program to deploy boom in the Gulf of Mexico. For more information 907-301-8878.
- 65 of 1,151 contracts have been activated for the Vessels of Opportunity program in Florida.
- Submit your vessel as a vessel of opportunity skimming system: (281) 366-5511

Important Phone Numbers

- **Florida Oil Spill Information Line-** 1-888- 337-3569
- **Fraud Hotline-** 1-866-966-7226.
- **Submit Alternative Response Technology Services & Products-** email horizonsupport@oegllc.com or call 1-281-366-5511
- **Report Oiled Wildlife-** 1-866-557-1401
- **Report Oil Sightings to the State Warning Point-** 1-877-2-SAVE-FL (1-877-272-8335)
- **BP Toll-Free Claims line-** 1800-440-0858
- **BP's Community Information line-** 1-866-448-5816
- **Florida Agriculture and Consumer Services Commissioner gas price-gauging hotline:** 1-800-HELP-FLA (1-800-435-7352).

General Safety Information

- www.santarosa.fl.gov
- Citizens can sign up to automatically receive breaking news alerts from Santa Rosa County Emergency Management via e-mail or as a text message on their cell phone at: www.santarosa.fl.gov/emergency/publicwarning.html.
- The Santa Rosa County Citizen Information Line at (850) 983-INFO or 4636 is open 8 a.m.-5 p.m. daily.
