Deepwater Horizon Incident Update #63 (Highlighted sections indicate new information)

Situation Update

- **Navarre Beach and Santa Rosa's entire coastline is open for swimming and fishing.** Two links to live Web cams on Navarre Beach are available at www.santarosa.fl.gov/oilspill under the "Links for Visitors" tab.
- There are currently no swimming or fishing restrictions on Navarre Beach or anywhere in Santa Rosa County.
- No tar balls were reported on the beach this morning. One oiled bottle was collected in the wrack line (This is the line of debris that rests on the beach at the highest reach of the surging waves. The most prominent feature of the sea wrack is usually clumps of algae, or "seaweed.") at beach crossover number eight.
- Heavy June grass was also reported in the surf zone.
- Continued impacts will be possible in Northwest Florida over the next 72 hours.
- According to the NOAA oil plume model, the oil plume is 110 miles from Pensacola, and 130 miles from Panama City. NOAA trajectory forecasts are showing a slow eastward movement of both offshore oil and the near shore uncertainty line through Friday. No direct significant onshore impacts are forecast through the end of the week.
- There are currently ten AmeriCorps NCCC, or National Civilian Community Corps volunteers staying in the Santa Rosa County Emergency Operations Center. These volunteers will be assisting with SURF, or Shoreline Users Resource Force, volunteer registration through the Retired Senior Volunteer Program, First Call for Help through United Way of Santa Rosa, SAFER Santa Rosa, and the Bay Area Food Bank. The team will be sharing information and lessons learned from other projects with Santa Rosa County. A new team of volunteers will be arriving on Monday, July 19 and the current team will be leaving on Friday, July 23.
- A night cleanup crew of 40 is scheduled to work on Navarre Beach tonight, July 14.
- Pensacola Pass as well as Perdido Pass will continue to be closed with the tide to reduce the amount of oil from entering inland waters. These waterways are manned to allow access to necessary vessel traffic during low tide.
- **In order to expedite responses to oiled wildlife, please contact the oiled wildlife hotline at 1-866-557-1401 if oiled wildlife is spotted. Qualified personnel will respond to the report. Please do not touch or try and clean oiled wildlife.**
- **Citizens are asked not to have direct contact with oil and oil contaminated products such as tar balls, tar patties, tar mats, and oil sheen. Only qualified members should handle oil products and oil contaminated materials. To report tar or oil on the beach, call the Florida State Warning Point Line at 1-877-272-8335 or # DEP from a cell phone.**

Health

For more information visit www.santarosa.fl.gov/oilspill under the "Health" tab.

- July 12 water testing by the University of West Florida showed no dissolved petroleum hydrocarbons above what is normal at Navarre Beach Pier and Santa Rosa Island.
- Air quality reports for July 11 revealed that air quality was considered good for ozone and fine particulate concentrations in the panhandle. "Good" means the air quality is satisfactory and air pollution poses little or no risk.

- July 11 water sampling by the Florida Department of Environmental Protection showed no petroleum-related contaminants at the Navarre Beach fishing pier or Navarre Beach West. There will be two water samples collected tomorrow, July 15. Results will be available at <http://www.dep.state.fl.us/deepwaterhorizon/water.htm#counties>.

Santa Rosa County Actions

For more information view the Situation Report and Incident Action Plan at www.santarosa.fl.gov/oilspill under “What’s Hot” on the “Main” tab.

- The Santa Rosa County water reconnaissance teams continue to survey water and boom conditions daily, weather permitting, providing real time information on oil products including photos and GPS coordinates.
- County staff and reconnaissance teams continue to monitor beach conditions daily generally from day break until 6 p.m., weather permitting.
- The Division 1 Branch office is operational and located in Pensacola. It serves both Escambia and Santa Rosa counties, bringing together federal, state and local agencies to streamline response efforts. Santa Rosa County has had staff representation in the office since its implementation.

Booms

For more information visit www.santarosa.fl.gov/oilspill under the “Local Action Plan” tab.

- Santa Rosa County and the City of Gulf Breeze boom will remain open until further notice unless there is an imminent threat of oil product verified by state or local surveillance. In this case, the boom could be closed without prior notice and boaters can call (850) 602-0242 for emergency boom openings.
- Oil containment boom (in feet) total: 770,761 deployed in Florida
 - Tier 1 & Tier 2: 455,300
 - Tier 3: 315,461 (deployed by Florida contractors)

BP Claims

For more information, including how to file a claim, visit www.santarosa.fl.gov/oilspill under the “Claims” tab.

- BP claims in Florida total 29,309 with approximately \$33,108,735.14 paid.
- BP claims in Santa Rosa County total 3,200 with approximately \$3,489,600 paid.

Small Business Disaster & Bridge Loans

For more information visit www.santarosa.fl.gov/oilspill under the “Business” tab.

Fishing

For more information visit www.santarosa.fl.gov/oilspill under the “Boating, Fishing and Wildlife” tab.

- All Santa Rosa County waters are currently open to fishing.

Vessels of Opportunity (Boats) Program

For more information visit www.santarosa.fl.gov/oilspill under the “Boating, Fishing and Wildlife” tab.

- 413 vessels have been deployed in Florida for the Vessels of Opportunity program.

Volunteer Information

For more information visit www.santarosa.fl.gov/oilspill under the “Volunteer” tab.
