Subject: TDC Resignation

Hi Vernon,

I regret that I must resign my position on the TDC.

The change to a government controlled model has, in my opinion, had a negative effect on the TDC's ability to do its job promoting our destination. We have lost many of our volunteers that worked with us in Navarre because of this new structure. Frankly, it has become a chore to continually plow the same ground each year and have nothing change for us in Navarre.

I have always admired the North End's ability to work together and get things done. I wish we were able to accomplish the same for Navarre. Hopefully a new appointee can work with the committee here to get Navarre moving in the right direction.

I have always enjoyed the friendship and camaraderie of my fellow council members and wish you all much success in the further development of tourism in Santa Rosa County.

Yours truly,

Laurie Gallup
