Re: REQUEST TO ADVERTISE AN RFP FOR WATER QUALITY SUPPORT SERVICES

RCH
Req

Discussion:

The current contract with Geosyntec Consultants to conduct water quality sampling, reporting, and support services for the SRC Environmental Departments closed and existing landfills expires in October of 2016.

Finding:

The Environmental Department has prepared a Requests for Proposals (RFPs) for environmental consulting and engineering firms to submit proposals to perform water quality sampling, analysis, and support services as required within the Departments FDEP operating permit.

Actions to be Considered:

That the SRC BOCC approves the request from the Environmental Department to advertise for water quality sampling, analysis, and support services.
